Short Description

SV 138 B can be used both for built-in and as a freestanding service cabinet. The cabinet has one temperature zone and can be adjusted between 5°C – 18°C. With 3 strong metal shelves it can hold 138 upright wine bottles. A fine cabinet for wine storage.

The design is timeless. The intuitive touch display and the interior light give the cabinet an exclusive look. Right-hinged door with option for door reversing gives you the flexibility to place the wine cabinet anywhere in the room.
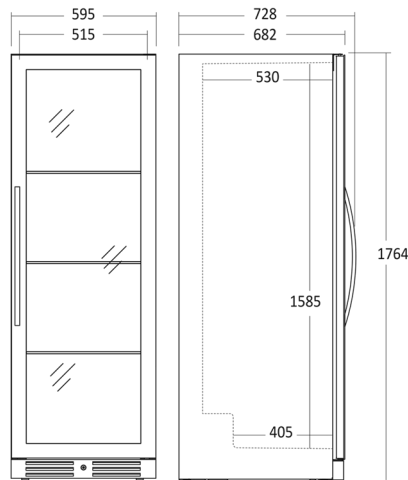

The cabinet comes with a lock and key to keep your bottles safe. 10 LED side lights and 1 LED top light provide a good light and represents the wine bottles nicely. The cabinet has an intelligent air circulation system, that ensures perfectly ventilated, anti-vibration cooling throughout the entire cabinet.

SV 138 B is electronically controlled and has a digital control panel, making it easier to see and adjust the temperature in the cabinet.
